

Welcome to Genio

A Living Companion for Your Mac

> *"Software designed not just to be used, but to be wished into existence."*

The Sanctuary

Genio introduces a new kind of software experience to your Mac: a quiet, living sanctuary nestled right in your menu bar.

It shapes itself around your life. Whenever inspiration strikes or a personal need arises, type a wish, and a living, responsive interface comes to life right before your eyes.

Whether you seek a serene moment of mindfulness, a live instrument for your creative workflow, or a gentle morning ritual to start your day, Genio manifests it with grace, elegance, and absolute privacy.

Welcome to a canvas made entirely for you.
