

Welcome to Genio

A Living Companion for Your Mac

> *"Software designed not just to be used, but to be wished into existence."*

The Sanctuary

Genio introduces a new kind of software experience to your Mac: a quiet, living sanctuary nestled right in your menu bar.

It shapes itself around your life. Whenever inspiration strikes or a personal need arises, type a wish, and a living, responsive interface comes to life right before your eyes.

Whether you seek a serene moment of mindfulness, a live instrument for your creative workflow, or a gentle morning ritual to start your day, Genio manifests it with grace, elegance, and absolute privacy.

Welcome to a canvas made entirely for you.

🌿

Serene & Mindful

A calm presence in your menu bar that respects your focus.

✨

Living Interface

Shapes real, native widgets on demand to fulfill your wishes.

🔒

100% Private

Your thoughts, data, and wishes remain strictly on your Mac.

Two Ways to Awaken Genio

Choose between the fast one-step automated awakening or manual step-by-step configuration:

OPTION A **Way 1: Automated Setup (Recommended)**

Awaken Genio in seconds with a single automated Terminal command. Your Mac prepares your environment, links your AI companion, and launches Genio automatically.

Direct 1-Click Solution: Go to Page 3 →

OPTION B **Way 2: Manual Configuration**

If you prefer to configure components manually step by step:

1. Drag **Genio** from the **Installer** into your **Applications folder**, then double-click to open.
2. macOS confirms independent apps once. Click **Done** on the alert, then open **System Settings > Privacy & Security > Security**, locate **Genio.app**, and click **Open Anyway**.
3. **Connect AI:**

Claude (Recommended)

Run in **Terminal**:

```
npm install -g @anthropic-ai/claude-code
```

Then run below to sign in once:

```
claude
```

Codex by OpenAI

Run in **Terminal**:

```
npm install -g @openai/codex
```

Then run below to sign in once:

```
codex login
```

The Universal Awakening

The simplest way to awaken Genio on your Mac in a single step.

One-step setup for macOS

Press **Cmd + Space**, type **Terminal**, and press **Return**. Paste below code block and press **Return**:

```
/bin/zsh -c 'echo "✦ Awakening Genio..."; xattr -cr "/Applications/Genio.app" 2>/dev/null; mkdir -p
"$HOME/.local/bin"; export PATH="$HOME/.local/bin:$PATH"; grep -q ".local/bin" "$HOME/.zshrc" 2>/dev/n
ull || echo "export PATH=\"\$HOME/.local/bin:\$PATH\"" >> "$HOME/.zshrc"; command -v node >/dev/null 2
>&1 || (command -v brew >/dev/null 2>&1 && brew install node || (curl -fsSL https://raw.githubusercont
ent.com/nvm-sh/nvm/v0.40.1/install.sh | bash && export NVM_DIR="$HOME/.nvm" && [ -s "$NVM_DIR/nvm.sh"
] && \. "$NVM_DIR/nvm.sh" && nvm install --lts)) >/dev/null 2>&1; echo "✓ Preparing environment"; (com
mand -v claude || command -v codex || npm i -g --prefix "$HOME/.local" @anthropic-ai/claude-code) >/de
v/null 2>&1; command -v claude >/dev/null 2>&1 && (claude --version >/dev/null 2>&1 || claude) || (cod
ex --version >/dev/null 2>&1 || codex login); echo "✓ Connecting AI companion"; open "/Applications/Ge
nio.app" 2>/dev/null || true; echo "✓ Ready! Look for the lamp in your menu bar."'
```

Your Mac will automatically prepare your environment, link your companion, and light the lamp in your menu bar.

Pure canvas and minimal essentials

Genio is deliberately kept light and spacious so you can shape, design, and personalize the canvas as you wish. It includes thoughtful essentials: **pinned for always on top** so you never lose focus, **dynamic resizing** to fit your screen rhythm, and **10 soothing wallpapers** to seamlessly match your mood.

Updates

A subtle pulse appears in the header when an update is available. To update while keeping your creations intact:

```
curl -fsSL https://raw.githubusercontent.com/abhi32dev/Genio-Releases/main/scripts/update.sh | ba
sh
```

Download link: Genio.dmg • Release page: Genio Releases

The Art of Wishing

Now click the golden lamp in your menu bar, type into **"Make a Wish..."**, and watch your thoughts take living form:

🌿 Mindfulness & Stillness

- *"manifest a peaceful breathing circle with ambient sound"*
- *"grant a mindful hydration and posture pause for deep work"*

✨ Morning Focus & Inspiration

- *"manifest a morning wisdom quote with daily sunrise notes"*
- *"create an intentional 3-item priority list for today"*

📊 Living Instruments & Telemetry

- *"summon a live telemetry gauge for my processor, memory, and battery"*
- *"manifest a clean tracker for my weekly creative goals"*

🎵 Atmosphere & Space

- *"conjure a minimalist audio controller for lo-fi and focus beats"*
- *"summon a subtle world clock tracking Tokyo, London, and New York"*

When your widget appears, click **"Keep"** to save it permanently, or type another wish to transform it anew.

Your sanctuary is forever yours

All your custom widgets, themes, and preferences live safely on your Mac in `~/.genio/`. Genio operates 100% on-device with complete privacy. Nothing is harvested, tracked, or sent to third parties.
